

City of Bainbridge Island

**- NOTICE -**

**MADISON AVENUE WATER  
MAIN PROJECT**

**Work to be Performed:** The City's Madison Avenue Water Main project consists of replacing an old section of 6-inch diameter pipe with new 12-inch diameter. Approximately 1,200 feet of pipe will be constructed between High School Rd and Wallace Way.

As part of the construction, single lane traffic closures with alternating two-way traffic will be required and alternate routes are recommended.

Once the new pipe is constructed, services will have their water shut off temporarily while connections are made to the new water main. The temporary shut offs may take up to two hours. A City inspector will notify you ahead of time with more accurate details as work progresses.

**When:** Work is expected to begin the last week of May 2013 and continue thru the end of June 2013.

**Questions?:** Please call Dale Richards at 780-3739.
