

Examples of Some Approved Tableware Options for Events on Bainbridge Island*

(Updated February 2015)

*Cities differ in what they can accept in terms of recyclables and compostables. For example, Bainbridge Disposal's compost processor does not accept compostable plastics but will tolerate compostable-*lined paper* products. Also, our recycling processor does not accept plastic-lined (polycoated) paper cups, whereas we can send wax-coated cups to the composter.

Compostable plates - comparing 9" plates (shipping not included), varying quantities
